

Dr. Nicole Karjane (left) and her family.

Sometimes, it's the little things that matter most.

Each of our more than 400 work-life programs contribute to helping our working moms (and their families) be their very best. And it's these programs — like flexible scheduling, onsite child care, back up care and education assistance — that have helped VCUHS earn the distinction as one of **Working Mother magazine's "100 Best Companies"** for the seventh time in 2011.

(And that's no small potatoes.)
