

# World Continence Week

## Urogynecology: Female Incontinence

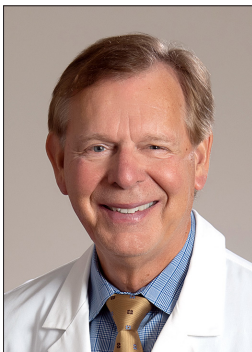

**Wednesday, June 23, 2021 at 12:00 p.m.**

**Presented on Zoom: visit [www.vcuhealth.org/cmh-core](http://www.vcuhealth.org/cmh-core) for the Zoom link**

Urinary incontinence is the inability to control one's bladder. It affects twice as many women as men, primarily caused by pregnancy, childbirth and menopause. Incontinence is not just part of aging, and it is treatable.

Learn more from a board-certified urologist from the comfort of your own home.

- What can cause female incontinence?
- Common symptoms of female incontinence
- Learn how to decrease your risk of female incontinence

### **Our Speaker: John Pearson, MD**

Dr. Pearson earned his medical degree from Northwestern University in Chicago, Illinois. He completed a surgical internship, surgical residency and urology residency at the University of California, San Francisco. He served in the United States Navy as a Lieutenant Commander. Dr. Pearson is board certified in urology with special interest in urogynecology. He is a fellow of the American College of Surgeons and member of the American Urological Association.

**Dr. John Pearson** is currently seeing patients at CMH Urology located inside the C.A.R.E. Building, 1755 N. Mecklenburg Avenue in South Hill. To view a full list of services visit: **[VCU-CMH.org](http://VCU-CMH.org)**

**Good Health Begins With Good Information.** Registration is appreciated, but not required. Register online at **[www.vcuhealth.org/cmh-core](http://www.vcuhealth.org/cmh-core)**
