

# Teddy Bear & Doll Clinic

Saturday, May 4, 2019

10 a.m. - 1 p.m.

VCU Health CMH C.A.R.E. Building  
1755 N. Mecklenburg Avenue, South Hill

Please bring your special Teddy Bear or Doll to a fun clinic on May 4. Doctors, nurses and staff members from VCU Health Community Memorial Hospital will be on hand to provide check-ups and treatment, so your favorite loved one will feel better in no time.

Our talented staff specialize in the repair of “lacerations” of seams, stuffing replacement, X-rays, the applications of band-aids, dental exams, and much more.

While your special friend is being treated, you and your parents will enjoy a tour, a delicious snack, and more!

Please bring your special favorite teddy bear or doll to the C.A.R.E. Building of VCU Health CMH on Saturday, May 4 for this fun event.

## **PARENTS:**

This clinic is being sponsored by VCU Health CMH's T.R.E.E. Committee, and is designed to reduce any fear or anxiety that your child might have about hospitals and health care visits.

Your child will already be familiar with our facility in the event that he/she is ever a patient at the hospital or is ever treated in the Emergency Department or our Dental Clinic. Your child will also have the chance to visit with members of the South Hill Police Department, the South Hill Fire Department and Southside Rescue. Please call (434) 447-0857 for more information.
