VCU Health Outpatient Facility Construction

Updates: 10/15/2018

Utility work and construction at and around the VCU Health Outpatient Facility site will affect traffic patterns on the MCV Campus over the next several months. Please take note of the construction activities below and plan your travel through the MCV Campus accordingly so you arrive safely and on time.

**UPDATE:** Intersection of 10th and Turpin streets closed: **Beginning Oct. 20**

- **Beginning Saturday, Oct. 20,** the intersection of 10th and Turpin streets will be closed to traffic. This 3-4 week closure will shut down all through traffic on 10th Street between E. Leigh Street and Duval Street.

- During the closure, access to N Deck will be available via Duval Street. Detour signs will be posted in the area to direct drivers of alternate routes.

- VCU Police will have units present in the area during peak traffic hours, Monday-Friday, as needed, to assist with the flow of traffic. It may be helpful to incorporate additional time in your commute while this project takes place, as heavy traffic is expected.

- More information will follow.

**REMINDER:** Leigh Street utility work

- Dominion continues utility work from 9th Street through the 10th Street intersection on Leigh Street. Eastbound Leigh Street has been reduced to one lane. To accommodate this change, all traffic is routed through the turning lane at the intersection of 10th Street. Drivers should be aware of potential delays as cars turning north/south and traveling east are sharing the same lane.

**REMINDER:** 11th Street traffic control measure

- “No Turn on Red” signs have been installed at the intersection of 11th and Leigh streets.

**REMINDER:** VCU Health Outpatient Facility construction

- Excavation and construction has begun on the VCU Health Outpatient Facility site. The sidewalks on 10th and 11th streets will be closed to pedestrians throughout the duration of construction. For your safety, please follow the detours in this area.

We recognize these on-going changes to traffic patterns on the MCV Campus will be inconvenient to you. As we continue to implement exciting changes throughout our health system, we thank you in
advance for your cooperation and understanding. Together we are designing and building the future of health care.
