Utility work and construction at and around the VCU Health Outpatient Facility site will affect traffic patterns on the MCV Campus over the next several months. Please take note of the construction activities below and plan your travel through the MCV Campus accordingly so you arrive safely and on time.

**REMINDER: Intersection of 10th and Turpin streets closed**

- The intersection of 10th and Turpin streets remains closed to traffic. This 3-4 week closure will shut down all through traffic on 10th Street between E. Leigh Street and Duval Street.

- During the closure, access to N Deck will be available via Duval Street. Detour signs will be posted in the area to direct drivers of alternate routes.

- VCU Police will have units present in the area during peak traffic hours, Monday-Friday, as needed, to assist with the flow of traffic. It may be helpful to incorporate additional time in your commute while this project takes place, as heavy traffic is expected.

**REMINDER: Leigh Street utility work**

- Dominion continues utility work from 9th Street through the 10th Street intersection. Eastbound Leigh Street will be reduced to one lane. To accommodate this change, all traffic will be routed through the turning lane at the intersection of 10th Street. Drivers should be aware of potential delays as cars turning North/South and traveling East will be sharing the same lane.

**REMINDER: 11th and Leigh Street Traffic Control**

- “No Turn on Red” signs have been installed at the intersection of 11th and Leigh streets.

**REMINDER: VCU Health Outpatient Facility construction**

- Excavation and construction has begun on the Outpatient Facility site. The sidewalks on 10th and 11th Streets will be closed to pedestrians throughout the duration of construction. For your safety, please follow the detours in this area.

We recognize these on-going changes to traffic patterns on the MCV Campus will be inconvenient to you. As we continue to implement exciting changes throughout our health system, we thank you in advance for your cooperation and understanding. Together we are designing and building the future of health care.
