Utility work and construction at and around the former VTCC site will affect traffic patterns around the MCV Campus over the next several months. Please take note of the construction activities below and plan your travel through the MCV Campus accordingly so you arrive safely and on time.

UPDATE: Leigh Street utility work

- The City of Richmond Department of Public Utilities will continue their work on Leigh Street at the intersection of 10th Street until the end of June. Be aware of possible short-term detours.
- Once the DPU work is complete, Dominion will begin utility work from 9th Street through the 10th Street intersection. Eastbound Leigh Street will be reduced to one lane. To accommodate this change, all traffic will be routed through the turning lane at the intersection of 10th Street. Drivers should be aware of potential delays as cars turning North/South and traveling East will be sharing the same lane.

REMINDER: 10th Street utility work

- Street parking will remain closed and bus traffic will continue to be re-routed through the duration of the project.

REMINDER: 11th Street lane closures

- 11th Street, just north of Clay Street, will be reduced down to one lane intermittently through the end of June.

REMINDER: Former VTCC building demolition

- Demolition of the former VTCC building continues. The sidewalks on 10th and 11th will be closed to pedestrians throughout the duration of the demolition and construction. For your safety please follow the detours in this area.

We recognize these on-going changes to traffic patterns on the MCV Campus will be inconvenient to you. As we continue to implement exciting changes throughout our health system, we thank you in advance for your cooperation and understanding. Together we are designing and building the future of health care.
