VCU Health Outpatient Facility Construction Alert

**Updates: 10/17/2018**

**Road closures planned for 10th and Turpin streets, detours in place**

Beginning Saturday, Oct. 20, the intersection of 10th and Turpin streets will be closed to traffic. This 3-4 week closure will shut down all through traffic on 10th Street between E. Leigh Street and Duval Street.

During the closure, access to N Deck will be available via Duval St. Detour signs will be posted in the area to direct drivers of alternate routes.

- **Westbound traffic** on Leigh St., including VCU Child Development Center and N Deck subscribers, will follow a detour route along Leigh St. and turn Northbound on N. 8th Street. Drivers will proceed on 8th Street to the Duval St. Connector and turn Eastbound. A section of North 10th St. will be open for access to the N Deck and childcare center drop-off/pick-up traffic only.

- **Eastbound traffic** on Leigh St. will turn Northbound on N. 4th St., Eastbound on Jackson St. and Northbound onto North 8th St. to access the Duval St. Connector for N Deck and childcare center access.

VCU Police will have units present in the area during peak traffic hours, Monday-Friday, as needed, to assist with the flow of traffic. It may be helpful to incorporate additional time in your commute while this 3-4 week-long project takes place, as heavy traffic is expected.

We thank you in advance for your understanding and cooperation. If you have questions or concerns regarding parking impacts, please contact VCU Parking and Transportation customer service at 828-PARK (7275).
